Business Management In New Jersey Courts

DEPARTURE of Federal Judge Bourquin from New Jersey leaves the impression that when a judge sets out to relieve the crowded court calendar, he can succeed. The Montana brand of speed set an example for the New Jersey judges of all courts and also to lawyers. Praise for the expedition of legal business in Judge Bourquin's court does not imply criticism of all judges in this state, for there are many who work hard and some who are overworked. ...cations in the new Hudson County Jail or the Federal Penitentiary at Atlanta that he is not the cause of the terrible weather out there.

To bolster up this contention these prisoners, who were forced by the Montana jurist to exchange names for numbers, will cite the fact that coincidental with his departure, summer came to us again on a flying visit, spreading its influence throughout the whole State, so that yesterday New-arkers of the timorous male sex discarded overcoats and heavyweight clothing while the flappers, who have been floating around in filmy creations, resumed the fur coats and neckwear which have come to be regarded by them as de rigeur during the "dog days" of July and August.

It's a great country, with roses far sweeter than those that grow in Normandy blooming on the eve of December in Morristown, while the Southwest is buried under snow, and the cold in Butte as bitter as in the Arctic Circle when Dr. Fred Cook kept his Esquimaux guides alive by feeding them with gum drops.
